# Integrated Biometric Time Attendance Device

## MFSTAB-3G (Aadhaar Enabled)

Keeping track of employees' attendance is vital to the efficiency of the business. Manual time capture systems are error-prone and consolidation of data from various sources is difficult & time-consuming. MFSTAB 3G is the perfect choice to efficiently set the time management discipline, report and record keeping for a small or mid-size single location to large multi-location enterprises.

MFSTAB 3G is a fingerprint time attendance terminal with built-in 3200 mAh battery. It can also be used as an Aadhaar biometric device for attendance marking application in government organizations. It authenticates users using their Aadhaar number stored in the smart card and fingerprint within a few seconds. The device offers unique advantages in terms of connectivity, technology, usage environment and easiness. With elegant appearance and reliable quality, you can get better time and attendance management from MFSTAB 3G.
